### Pharmacology on the Rise

In pharmacology, all drugs have two names - a trade name and a generic name. For example, the trade name of Tylenol is acetaminophen. Aleve is known as naproxen, Amoxil is amoxicillin, and Advil is ibuprofen.

The FDA has been looking for a generic name for Viagra. After consideration by a team of government experts, it recently announced it has settled on the generic name of mycoxafloppin. Also considered were mycoxafailin, mydixadrupin, mydixarizin, mydixadud, dixafix, and of course, ibepokin.

Pfizer Corp. is making an announcement today that Viagra will soon be available in liquid form and will be marketed by Pepsi Cola as a power beverage suitable for use as a mixer.

Pepsi's proposed ad campaign claims it will now be possible for a man to literally, pour himself a stiff one. Obviously, we can no longer call this a soft drink.

This additive gives new meaning to the names of cocktails, highballs and just a good old-fashioned stiff drink. Pepsi will Market the new concoction by the name of Mount & Do.

The long-term implications of drugs and medical procedures must be fully considered: over the past few years, more money has been spent on breast implants and Viagra than was spent on Alzheimer's research.

It is believed that by the year 2030, there will be a large number of people wandering around with huge breasts and erections who can't remember what or who they're doing.

A precious little girl walks into a pet shop and asks in the sweetest little lisp, "Excute me, mithter, do you keep widdle wabbits?"

As the shopkeeper's heart melts, he gets down on his knees, so he is on her level, and asks, "Do you want a widdle white wabbit or a thoft and fuwvy bwack wabbit or maybe one like that cute widdle bwown wabbit over there?"

She, in turn blushes, rocks on her heels, puts her hands on her knees, leans forward and says in a quiet voice, "I don't fink my pet pyfon weally gives a phwuk."

After a long night of making love the young guy rolled over, was looking around when he noticed a framed picture of another man on a desk in the distance

Naturally, the guy began to worry.

'Is this your husband?' he inquired nervously.

'No, silly,' she replied, snuggling up to him.

'Your boyfriend then?' he asked.

'No, not at all,' she said, nibbling away at his ear.

'Well, who is he then?' demanded the bewildered guy.

Calmly, the girl replied,

'That's me before the operation.'
