# What Your Currency Is Worth Against Other Currencies.

How to read table:

The Horizontal row gives the amount of another currency for the currencies listed down the left hand side.
eg; For $1.00 Australian you will get **30.82** baht.

The Vertical columns give the value of another currency in your chosen currency. eg; 10 baht is worth **32** cents Australian.

**15.** satyr
**16.** 20 years
**17.** Argus
**18.** Tiamut

**REVERSE MORTGAGE** - *Continued from Page 31*

The main thing people have to get into their head is that drawing down their percentage of equity in their home makes sense. All our lives we have been taught to build up equity in the value of our real estate. The idea of a reverse mortgage goes against the grain. We tend to see it as losing our net worth. What we have to realize is; to provide benefit in our old age is precisely why we built up the equity and net worth in the first place. I hate to be the bearer of bad tidings, but someday we all have a date to leave this earth. What benefit to you is that equity after you are gone? NONE!
